Views of Southern Laws, Life, and Hospitality Written in Charleston, S. C., by F. C. Adams.

The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Janson, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Era of February 17:

"The above is the title of a work now in press founded upon that infamous statute of South Carolina by which her citizens claim a right to imprison colores scauces, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a lifelike picture of Pereira, the vessel in which he sailed the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New England States, and two French seamen; the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of peculation. The work is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one whe has taken a prominent part in the affairs of the South and cannot fail to interest alike the general reader, commercial man, and philanthropist."

BEAUTIFULLY illustrated with original designs.

"Rollo on the Atlantie" is the first book of a series to be published under the general title of Rollo's Tour in Europe.

Extract from the Preface:

"The books are intended to be books of instruction, rather than of mere amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the customs, usages, and modes of life that are described, but also in regard to the general character of the incidents and adventures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true."

ARNOLD'S, St STRAND, LONDON.

I HEKEBY constitute Mr. Simon Willard, No. 9
Congress street, Boston, sole agent for the sale of my Watches in the United States of America.

April 15, 1853. CHARLES FRODSHAM.

The undersigned, having been appointed sole Agent in the United States for the sale of Charles Frodsham's Improved Timekeepers, would respectfully call public attention to his extensive and valuable stock of Compensated Chronometer Watches, made by Charles Frodsham, and styled his "New Series." In the Watches of the new series, Mr. Frodsham has succeeded—by a more perfect method of compensation, a more correct adjustment in isochronism, and an entirely new and peculiar construction of the train, by which more power is obtained without increase of size—in producing timekeepers of wonderful and univalled accuracy. The great importance of the improved Watches is a perfect regularity of time, under svery variety of climate, motion, and position. So perfect are the adjustments, that the most violent exercise—such as horseback riding, jumping, &c.—produces on them no sensible effect. They are therefore peculiarly adapted to railroad purposes.

The scientific French critic, Mons. Borsendorf, in his review of the Great London Exhibition of 1851, styles the contribution of Mr. Charles Frodsham as "bearing the stamp of peculiar merit, and as being the flower of the English school."

The British Government have awarded Messrs. Arnold and Charles Frodsham the sum of £3,170, for the excellence of the principle of their timekeepers.

One of Mr. Frodsham's correspondents writes as follows:

London, April 26, 1852.

PROSPRCTUS OF THE PROHIBITIONIST.

"If any State deems the retail and internal trafficial ardent spirits injurious to its citizens, and calculated to produce idleness, vice, or debauchery, I see acting in the Constitution of the United States to prevent it from regulating or restraining the traffic or from prohibiting it altogether, if it thinks proper."

Chief Justice Taney.

Chief Justice Taney,

On or before the lat of January, 1854, the Executive Committee of the New York State Temperrance Society will issue the first number of a Month-ly Temperance Journal, under the title of "The ProHIBITIONIST."

Its Sizk—It will be printed on a double medium sheet, making eight quarte pages, of four columns to

nals, or to that of an ordinary duodecimo volume of 150 pages.

Its Object.—To advocate the Cause of Temperance generally, and especially the Legislative Prohibition of the Traffic in Intoxicating Beverages, to prepare the minds of the masses for such Prohibition, by showing its expediency and Necessity, and to secure, by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when obtained.

Its Field.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists, and with facts illustrative of these arguments and principles, the paper will be National in its scope, in its purpose, and, we trust, it will be National in its circulation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitionist is established, not as the organ of a society merely, but of a Great Reformatory Movement.

Its Necessity.—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. The Prohibitionist is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

to place a copy in each lamily that will be coive it.

Its Price.—One copy for one year - \$0 50

And for each additional four copies, \$1.00 will be added, for any quantity less than fifty copies.

For fifty copies to one address - \$11 00

The paper will be under the general direction of the Executive Committee, who have received ample assurances of literary aid from not a few of the ablest and most eminent writers in the temperance ranks throughout the Union.

The work will be stereotyped, and back numbers can be supplied to new subscribers at any time during the year.

he year.

All orders should be addressed to 0. Scovill, Pub-

Communications for the paper, or in relation to the interests of the cause generally, should be directed to Wm. H. Burleigh, Corresponding Secretary.

In behalf of the New York State Temperance Society: EDWARD C. DELAVAN, President. Executive Committee.—Henry Mandeville, Reuben L. Walworth, John O. Cole, I. N. Wyckoff, William

H. Walworth, John O. Cole, I. N. Wyckoff, William Richardson, Edgar B. Day, Hermon Carsp, B. P. Staats, Oliver Scovill.

The Committee request all editors in the United States to give the above one insertion in their columns. To all who comply with this request, we will send the Prohibitionist for one year, without an exchange, unless they choose to add to our obligation by sending their papers also, which would, of course, be most thankfully received.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the masterly guidance of Christopher North, main tains its ancient celebrity, and is at this time unusually attractive, from the social works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," both by Bulwer; "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Black wood, after it has been issued by Messer. PUBLISHERS' ANNOUNCEMENT! THE AMERICAN AGRICULTURIST

THE LEADING

Weekly Agricultural Paper of the Country.

THE AMERICAN AGRICULTURIST, a weekly
Periodical of sixteen large quarto pages, making
an annual volume of 832 pages of nearly double the
size of those in the first ten volumes of the Agricul-

A copious Index is weekly added, which will be fully amplified at the end of the year, for the bound work.

fully amplified at the end of the year, for the bound work.

Comprehensive in its Character,

Each volume will contain all matter worth recording, which transpires either at home or abroad, and which can serve to instruct or interest the Farmer, the Planter, the Fruit-Grower, the Gardener, and the Stock Broeder; thus making it the most complete and useful Agricultural Publication of the day.

Correct and valuable Market Reports.

The Markets will be carefully reported, giving the actual transactions which take place from week to week, in Grain, Provisions, Cattle, &c.; thus keeping our readers constantly and reliably advised as to their interests. During the past year, the knowledge obtained from these Market Reports alone has saved our readers thousands of dollars, by informing them of the best time to sell or purchase.

Such a Paper is demanded by the Farming

Such a Paper is demanded by the Farming Such a Paper is demanded by the Farming
Community.

The publishers confidently believe that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irresponsible extracts in a "farmer's column," so popular just now in papers chiefly devoted to business, politics, or literature; and they look for the united support of all the intelligent farmers of this country in their continuéd effort to furnish a weekly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

and conservative in all its teachings.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to catch popular favor by lumbering up its pages, with the silly, fictitious literature, and light, miscellaneous matter of the day; it has a higher aim; and a small part only of its space will be devoted to matters not immediately pertaining to the great business of Agriculture. The household as well as the out-door work of the farm will receive a due share of attention. The humbugs and nostrums affort in the community will be tried by reliable scientific rules, and their worthlessness exposed. It is the aim of the publishers to keep this paper under the guidance of those who will make it a standard work, which shall communicate to its readers only that which is safe and reliable.

An Independent Journal.

that which is safe and reliable.

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfulness, seal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever; nor is it the organ of any clique, or the puffing machine of any man or thing. Thoroughly independent in all points, its ample pages are studiously given alone to the support and improvement of the great agricultural class.

Editorial Department

Editorial Department. The American Agriculturist is under the editorial supervision of Mr. A. B. Allen, its principal editor for the past ten years, and Mr. Orange Judd, A. M., a thoroughly practical farmer and agricultural chemist.

They will be assisted by Prof. Nash, who has been file most specesful farmers of for a long time one of the most successful farmers of New England, and is now Agricultural Professor of Amherst College; Rev. All the editors are men practically experienced in their profession, each of whom can handle the Plow as well as the Pen.

The Cheapest Paper in the country, of its character.

Each number will contain suggestions for the treatment of soils, manues, crops, stock, &c., which will often be worth to the reader more than the cost of the paper for a year.
